About: Kurt Miller (AKA-The Boat Doctor): The Boat Doctor Inc. was established in Chicago, Ill. in 1990 by Kurt Miller a former mechanic and service manager at a leading suburban Chicago marine dealership. The Boat Doctor was 1st opened as a mobile service to provide needed services to the boaters in the Chicago harbors. The business grew and a shop was acquired on the South side of Chicago to provide services to an expanding customer base while still providing mobile services to the close-by harbors. With a crew of eight mechanics the business provided 1st class marine services for many years at that location. In 2000 Kurt moved The Boat Doctor Inc. to Downers Grove, Ill. Recently, November of 2005, Kurt Miller purchased Westerman's Marina in Portage, In., just off Rte. 249, and is now bringing his 23 years of boat repair experience to Indiana. With this experience and professionalism you can rest assured that you and your boat are in good hands with Kurt Miller at The Boat Doctor.
